2005: London Business School/PBS, Leadership Alliance Program

1999: Porto Business School, MBA

1994 : Degree in Management; FEP – Faculdade de Economia do Porto

EMPLOYMENT RECORD

I started my career in a retail bank, as a financial analyst and then I performed other functions in its commercial departments, being the last one medium size companies key account. During those times I also taught accountancy at Faculdade de Engenharia do Porto.

After 4 years I left the bank to attend a MBA program. After concluding the program, I joined BA Glass group as a Controller. Since then I carried out different responsibilities: as a financial director, a HR director, a plant manager and, since 2008, I was the Group CFO (with responsibilities on the financial area and also on the supply chain department, on procurement and logistics) and also a Board of Directors member.

In Sep-12 I joined La Seda (a plastic/PET packaging group, where BA shareholders had a 20% participation) in a short mission, returning to BA in July-13.

Since February 2014 I am the Group CEO, leading the Group Executive Board, made of 7 persons, and I report to the Board of Directors of which I am also member.
